DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 18 is rejected under 35 U.S.C. 102(e) as being anticipated by Vanderwilt et al. (US 6.693,661 B1, hereinafter "Vanderwilt").

Vanderwilt discloses an image transmitting method comprising:

a step of the other user's communication equipment and the user's own communication equipment performing voice or image communication (remote conference endpoints 302 communicate video and audio data with one another; col. 5, lines 14-28);

a step of displaying at least one image as at least one image menu on a display device of the user's own communication apparatus (Figure 7 displays thumbnail images 700 from which the user can select for transmission to remote conference endpoints 302; col. 7, lines 32-43);

a step of selecting an image (user selects thumbnail image by engaging user controls 134; col. 7, lines 35-43);

Art Unit: 2614

a step of the user commanding transmission of the image ("select" key causes the selected image to be transmitted to remote conference endpoints 302; col. 7, lines 39-43); and

a step of transmitting the image (the selected image is transmitted to remote conference endpoints 302 during the ongoing videoconference; col. 7, lines 39-43).

Allowable Subject Matter

3. Claims 1-16 are allowed.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Alperovich et al. and Ejima et al. show the display of a menu of images for selection and transmission.
